

## Luna Twinkle LED Illuminator

**The UFO Luna Twinkle is a powerful, yet efficient fiber optic illuminator, powered by LED technology, which has an inbuilt color or twinkle wheel.**

Powerful light output combined with cool and silent operation make this unit highly suitable for areas where a small fixture is required to provide both dimming and speed-adjustable color change or twinkling effects.

With a 50,000 hour lamp life, maintenance costs are reduced to almost nil.

Maximum flexibility is ensured with inbuilt 0-10V, DMX or manual dimming and motor control.

With a standard 30mm fiber port connector, this illuminator is suitable for retro-fitting to existing fiber optic installations.

Available with 3000K and 4000K LED arrays to suit many applications.

Description	
Port connector size	1.18" (30mm) diameter
Fiber type	Glass/PMMA
Supply voltage	100-240 VAC 47-63 Hz
PSU output	24V DC, 0.75A, 18W Maximum
Power supply	Meanwell GS18A24
LED output	White light with decorative effect wheel (color change or twinkle)
LED power	11.5W
Lamp CRI	Up to 80 CRI
Lamp color temperature	3000K or 4000K
Lamp life	50,000 hours
Min. ambient temperature	14°F (-10°C)
Max. ambient temperature	113°F (45°C)
Operating environment	Indoor / dry
Motor control functionality	Manual, DMX, 0-10V
Dimming control functionality	Manual, DMX, 0-10V
Material	Aluminum
Color	Silver
Size (L x W x H)	5.98" x 5.2" x 4.4" (152 x 132 x 112 mm)
Weight (inc. PSU)	3.04lb (1.38kg)

Like all our range, this illuminator is undergoing constant improvements and upgrades, so we reserve the right to alter specifications if required.
